Rama Website

Upcoming amendments to the Municipal Modernization and Red Tape Reduction Act, will require all municipalities to independently post their financial statements online by September 1, 2027. This act also helps in Improving public access to municipal information by requiring municipalities to post meeting minutes, financial statements and bylaws for the public to view. Municipalities were given a few options on how to meet this requirement and the Village has decided to create a Village of Rama Website when the website is up and running a link will be posted on the Village of Rama Facebook page. If anyone has any pictures of the Village that can be used on the new website, feel free to email them to the village villagerama@outlook.com
